D. Site Plan Amendments

An approved Site Plan may be amended by filing an application with the Planning Board for a Site Plan amendment.

1. If the Planning Board finds that such proposed amendment is consistent with the terms of any applicable Special Permit approval (or if no Special Permit is required) and does not represent a substantial change from the approved Site Plan, it shall grant the amendment without a hearing.
2. If the Planning Board determines that the proposed amendment is consistent with the terms of the applicable Special Permit approval (or if no Special Permit is required), but is a substantial change from the approved Site Plan, it shall follow the procedures for Site Plan approval contained in §175-66F and hold a public hearing if the amendment would be considered to be a Major Project.
3. If the Planning Board determines that the proposed amendment is inconsistent with the terms of any Special Permit approval, it shall consider the application to be one for a Special Permit amendment and proceed pursuant to §175-62.
4. Notwithstanding any other provision of this chapter, in considering any site plan amendment or any site plan approval for an existing use or structure, the Planning Board shall be limited to reviewing proposed changes and shall not require changes to any structures or conditions on the property legally in existence prior to such application, even if such structures or conditions are nonconforming.
