I am writing to provide you with the Planning Board's report and comments on the proposed local law to amend the Town Code regarding Wind Energy Conversion Systems. The Planning Board considered the draft local law at its meeting of November 20, 2014. The consensus among the Planning Board members was that the Planning Board does not have any substantive comments to offer in regard to the draft local law.

If you have any questions or comments please feel free to contact me.

Very truly yours,

REGARD TO WIND ENERGY CONVERSION SYSTEMS**

SECTION 1. INTENT and AUTHORITY.

This Local Law is adopted pursuant to the provisions of the Municipal Home Rule Law of the State of New York and Article 16 of the Town Law of the State of New York, with the procedural provisions of the Municipal Home Rule Law controlling.

SECTION 2. PURPOSE.

The purpose of this Local Law is to amend the Town’s Zoning Code to better regulate the construction and use of wind energy conversion systems within the Town of Philipstown.

SECTION 3. AMENDMENT OF THE TOWN CODE.

1. Town Code Section 175-10 (D) is hereby repealed and re-enacted to read as follows:

“(D) Accessory uses.

- (1) Uses customarily incidental and subordinate to a principal use shown on the Use Table shall be allowed by the same permit process as the principal use, unless otherwise indicated on the Use Table. (For example, if a light industrial use requires a special permit in a particular zone, then a service business operated as an accessory use to it would also require a special permit).
- (2) Such accessory uses may be on the same lot, on adjoining lots, or on lots that face each other across a street.
- (3) Noncommercial recreational uses shall be permitted as an accessory use in all districts, provided that they do not create noise, traffic, dust, odor, or other impacts that exceed those normally associated with single-family residential uses.
- (4) If there is no principal use on a residential lot, a use that is typically a residential accessory use, such as a residential garage, swimming pool, tennis court, or tool shed, may be allowed by special permit granted by the Zoning Board of Appeals.
- (5) Attached or detached garages associated with single-family residences shall not exceed 1,000 square feet in footprint area.

- (6) Solar and wind energy systems producing electricity and/or heat primarily for on-site use, including those with net metering, shall be considered customary accessory uses to all principal uses, Wind energy conversion systems are subject to the following conditions and restrictions:
 - (a) A minimum lot area of one (1) acre is required to construct and/or maintain a wind energy conversion system;
 - (b) Only one wind energy conversion system per lot is permitted;
 - (c) Wind energy conversion systems shall be screened to the greatest extent practicable through measures such as non-reflective paint, tower screens, planting and maintenance of natural landscaping (at property boundary areas where feasible), etc.;
 - (d) No lighting shall be installed on a wind energy conversion system;
 - (e) Maintenance ladders for wind energy conversion systems shall not exceed eight feet in height;
 - (f) Wind energy conversion systems shall be set back from all lot boundaries a minimum distance equivalent to the total tower height plus ten additional feet; and
 - (g) A locking protective fence at least six (6) in height shall be constructed around the wind energy conversion system tower unless the wind energy conversion system tower is installed to legal structure that would provide equivalent safety protection."
2. Town Code Section 175-30 (E) (2) is hereby repealed and re-enacted to read as follows:
 - "(2) Solar energy facilities and communications towers may exceed the height limits in the Dimensional Table provided that they comply with applicable sections of this Article VII. Vegetation planted on green roofs may also exceed height limits. Wind energy conversion systems may not exceed height limits in the Dimensional Table. Any solar energy facility or wind energy conversion system that is used to generate electricity primarily for off-site consumption shall require a special permit from the Zoning Board of Appeals."
3. Town Code Section 175-60 (A) is hereby amended to delete the words "and wind" from the fourth sentence therein such that the said sentence shall now read: "Communication towers, soil mines, and certain solar energy facilities [see §175-30E (2)] require a special permit issued by the Zoning Board of Appeals."

SECTION 4. SEVERABILITY

If any clause, sentence, paragraph, word, section or part of this Local Law shall be judged by any court of competent jurisdiction to be unconstitutional, illegal or invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the language directly involved in the controversy in which judgment shall have been rendered.
